

YOUNG ENTERPRISE

PROGRAMMES AND SERVICES 2024/25

A Member of JA Worldwide

www.young-enterprise.org.uk

For over 60 years, Young Enterprise has been working in partnership with schools to enhance and enrich curriculum learning allowing young people to discover, develop and celebrate their skills and potential.

Our programmes and services exist to provide young people with the opportunity to develop and apply an enterprising mindset needed to earn and look after their money and make a positive contribution to their community.

We take a blended learning approach to our programmes and services ensuring we can work together to deliver enterprise and financial education to young people. There are a range of ways we can work with you throughout the academic year from project-based competitions and challenges, remote or in-school delivered programmes, and even training and support for you and your colleagues.

This brochure is designed to introduce you to our programmes and services, and show you the key details on each of our offerings and which stage of study they are designed for. Young Enterprise representatives, supported by volunteers, deliver some of our programmes. Others are created for you, as an educator, to deliver yourself. Students can also take some courses independently, self-studying in their own time.

If you would like information on how to deliver financial or enterprise education please get in touch with our free advisory service.

WHO ARE WE?

Young Enterprise is a national charity which specialises in Financial and Enterprise Education and is a trusted and valued provider of knowledge, resources and training to anyone teaching young people how to manage money. Young Enterprise works directly with young people, teachers, and volunteers, with the support of corporate partners, to build a successful and sustainable future for all young people.

Young Enterprise's vision is to ensure that every young person is provided with the opportunity to learn the vital skills needed to earn and look after their money. Any investment to improve young people's financial literacy not only pays huge dividends to their lives, but their families, their communities and to wider society.

Our mission is to empower young people to discover, develop and celebrate their skills and potential.
